

List of First-Aid Materials

These first-aid supplies should be considered as the **Minimum Adequate** materials for first-aid kits. Additional supplies may be required in some schools and/or for some activities.

These materials should be kept in a secure but employee accessible area. Contents must be reviewed monthly, and used or outdated contents must be reported to the Principal or designate and replaced immediately.

[In square brackets are adjusted amounts for locations with less than 50 people.]
