

Specialist High Skills Major Business

2025-2026

Profile

In 2019, over a third of Canada's workforce was employed in trade and commerce, finance and insurance, administration and support, and real estate and leasing.¹ Qualified and knowledgeable workers in business will find prospects either in one of Canada's prospering companies or as an entrepreneur in one of their own. The SHSM – Business enables students to build a foundation of sector-focused knowledge and skills before graduating and entering apprenticeship training, college, university, or an entry-level position in the workplace.
